# ALPHABAN SUPER

Contains 14.5% w/w cypermethrin, 4.8% w/w tetramethrin & 19.3% w/w piperonyl butoxide.  
Formulated as an oil-in-water emulsion (EW).

**FORMULATED FOR THE CONTROL OF FLYING AND CRAWLING INSECTS.**  
For use as a surface spray for the control of flying and crawling insects such as bedbugs, fleas, cockroaches, beetles, flies, mosquitoes, moths and wasps.  
For use on surfaces where insects may rest (including cracks and crevices) in domestic, public and industrial premises, hospitals (excluding occupied wards) and military establishments.

500ml

## DIRECTIONS FOR USE

Add a small quantity of water to a suitable compression sprayer and then add product according to the table below. Add the remainder of the water, close the sprayer securely, shake to mix contents. Pressurise according to the sprayer manufacturer's instructions. One litre of ready-for-use spray treats 20 square metres of surface. Make up spray as required. Do not store spray overnight.

TARGET PEST	PRODUCT	WATER	COMMENTS
CRAWLING INSECTS <i>Routine treatment:</i> <i>Heavy infestation:</i>	25ml 50ml	5 litres 5 litres	<i>Maintenance or 'spot' treatment</i> <i>Attack or 'clean-out' treatment</i>
FLYING INSECTS <i>Routine treatment:</i>	25ml	5 litres	<i>For the control of 'resting insects'</i>

Apply as a coarse low pressure spray. Some surfaces will absorb more spray, e.g. brickwork or concrete, whereas surfaces such as metal or plastic will allow spray to easily 'run off' significantly reducing the deposit rate of the active material on the surface. Several passes of a light spray each allowed to dry is more effective when treating non-porous surfaces.

**Bedbugs:** Apply spray to harbours and resting places on bedframes, headboards and to cracks and crevices around or near the sleeping area. Pay special attention to any loose wall coverings near the sleeping area and to cracks and crevices in bedroom fittings and furniture. Treat under loose carpeting and around doorframes, picture frames and wall cupboards etc.

**Fleas:** Prior to treatment, thoroughly vacuum the area and seal the contents of the vacuum bag before disposal in the refuse. Apply spray to carpets and soft furnishings, including the underside of cushions and to areas regularly occupied by domestic animals.

**Cockroaches and other crawling insects:** Apply to areas where insects are found, e.g. skirting boards, storage areas, around water pipes, doorframes, window frames, around and behind refrigerators, cabinets, sinks, stoves and the underside of drawers and shelves and to cracks and crevices behind wall-mounted units or fixtures.

## PRECAUTIONS

IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get immediate medical advice/attention. IF ON SKIN: Get medical advice/attention if you feel unwell. Wear protective gloves/protective clothing/eye protection/face protection. Wash thoroughly after handling. Do not eat drink or smoke while using this product. Store locked up in a closed container. Dispose of contents/container in accordance with local regulations. Keep/store away from food/drink and animal feedingstuffs.

## WARNING

Causes serious eye irritation. May cause respiratory irritation. Harmful in contact with skin. Harmful if swallowed. Very toxic to aquatic life with long lasting effects.

**STATUTORY CONDITIONS RELATING TO USE**  
FOR USE ONLY BY PROFESSIONAL OPERATORS. FOR USE ONLY AS AN INSECTICIDE. Users must comply in full with their legal responsibilities under the Control of Pesticide Regulations 1986 (as amended), including complying with all Conditions of Approval. **Read all precautions before use. HSE No. 10078**

FOR INDOOR USE ONLY. The (COSHH) Control of Substances Hazardous to Health Regulations 2002 (as amended) apply to the use of this product at work. This material and its container must be disposed of in a safe way. To avoid risks to human health and the environment, comply with the instructions for use.
