

Prescription Treatment®

Sorsec Wasp Nest Destroyer

Contains: 0.25% w/w tetramethrin, 0.10% w/w d-phenothrin.

SORSEC®

Wasp Nest Destroyer

A powerful jet spray aerosol for effective wasp control at a safe distance

Contains: 0.25% w/w tetramethrin, 0.10% w/w d-phenothrin

For the control of the nests of wasps, hornets and masonry wasps.

This product should not be used against honey bees or their nests.

STATUTORY CONDITIONS RELATING TO USE

FOR USE ONLY AS AN INSECTICIDE.
FOR USE ONLY BY PROFESSIONAL OPERATORS.

DO NOT BREATHE SPRAY MIST.
EXCLUDE ALL PERSONS AND ANIMALS DURING TREATMENT.
DO NOT APPLY TO SURFACES on which food is prepared.
COVER -FOOD, FOOD PREPARING EQUIPMENT AND EATING UTENSILS before application.
Protect milk machinery and milk containers from contamination.
EXTREMELY DANGEROUS TO FISH AND OTHER AQUATIC LIFE.
Remove or cover fish tanks and bowls before application.
DO NOT APPLY DIRECTLY TO LIVESTOCK AND POULTRY.
HAZARDOUS TO BEES.
THIS MATERIAL AND ITS CONTAINER must be disposed of in a safe way.

READ ALL PRECAUTIONS BEFORE USE

(HSE 9294)

EXTREMELY FLAMMABLE

DIRECTIONS FOR USE

The treatment should be carried out at times when there is reduced wasp activity e.g. dusk. Direct the jet towards the nest, beginning from a distance of about 3 metres. Spray until the nest and all visible wasps are contacted, and then move forward spraying continuously, until the jet can be discharged directly into the nest hole. For large nests, the whole aerosol should be discharged. Wasps are very rapidly immobilised due to the freezing action of the spray. Wasps flying in the vapour cloud around the nest become narcotised and will not sting. The heavier than air vapour within the nest traps and suffocates the occupants. The insecticidal component of the formulation kills larvae and any wasps that attempt to enter the nest after the solvent has evaporated.

**EXTREMELY FLAMMABLE
TOXIC TO AQUATIC ORGANISMS, MAY CAUSE LONG-TERM ADVERSE
EFFECTS IN THE AQUATIC ENVIRONMENT**

*The COSHH (Control of Substances Hazardous to Health) Regulations 2002 (as amended) apply to the use of this product at work.

*Avoid excessive contamination of coveralls.

*Keep out of the reach of children

*This material and its container must be disposed of in a safe way

*Do not contaminate foodstuffs, eating utensils or food contact surfaces.

*Wash hands and exposed skin before meals and after use.

*Keep in a safe place.

*Keep away from sources of ignition – no smoking.

*Do not contaminate waterbodies or watercourses with chemicals or used container.

*Remove or cover all fish tanks and bowls before application.

*Do not touch treated surfaces until dry.

*Cover all water storage tanks before application.

*All bats are protected under the Wildlife and Countryside Act 1981. Before treating any structure used by bats, consult Natural England, Scottish Natural Heritage or the Countryside Council for Wales.

*Hazardous to bees.
