

DEADLINE[®]

Fluorescent Tracking Gel

Tracking gel for rats and mice

300ml e

FOR PROFESSIONAL USE ONLY.

DIRECTIONS FOR USE: Make sure surface is free from dust and dirt before application. Squeeze bottle until gel is in applicator brush and apply liberally. Gel can be used on horizontal and vertical surfaces. To aid visibility use a UV torch to highlight track marks.

NOTES: Any residue can be removed by washing with a suitable cleaning agent. Ensure brush applicator is clean and free from contamination. Apply product in areas where rodent activity is suspected, away from direct food contact surfaces.

Safety data sheet available on request.
