3KG

Contains: chrysanthemum cinerariaefolium extract 0.12% w/w*

*Chrysanthemum cinerariaefolium, extract from open and mature flowers of Tanacetum cinerariifolium obtained with supercritical CO₂.

To avoid risks to man and the environment, comply with the instructions for use. The (COSHH) Control of Substances Hazardous to Health Regulations 2002 may apply to the user of this product at work. Avoid excessive contamination of coveralls. Hazardous to bees. Action should be taken to prevent foraging bees gaining access to treated nests, preferably by removing the combs or blocking the nest entrances. Do not contaminate foodstuffs, eating utensils or food contact surfaces. Do not apply to clothing or human bedding. Do not apply directly to animals. Exclude animals during application. Keep in a safe place. Cover all water storage tanks before application. Wash hands and exposed skin before meals and after use. All bats are protected under the wildlife and countryside act 1981. Before treating any structure used by bats consult Natural England, Scottish Natural Heritage or the Countryside Council for Wales. This material and its container must be disposed of in a safe way.

Precautions:

Avoid release to the environment. Wear protective gloves. (In case of inadequate ventilation) wear respiratory protection. Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary. Collect spillage. Dispose of contents/container in accordance with national regulations.

Toxic to aquatic life with long lasting effects.
Contains chrysanthemum cinerariaefolium extract. May produce an allergic reaction.
